

Your medication in your mailbox

Your medication shipped right to you

With CVS Caremark® Mail Service Pharmacy, you can get your medication sent straight to your home or many other locations of your choice.

This service is for medication you take regularly. We also call these “maintenance” medications. You might be taking them for chronic conditions like arthritis, high cholesterol and others. Most prescription drugs are available through our mail order pharmacy. Check our formulary — the list of drugs we cover — or call us at the number on your member ID card.

Why use home delivery for your medications?

-

Let's get started

You have options on how to place your order:

Ask your doctor to send an electronic prescription (e-prescribe) to CVS Caremark Mail Service Pharmacy.

Give your doctor this number, (NPI: 1881952851), to send your prescription to us.

Call us at the number on your member ID card.

Log in to your secure member website. We will contact your doctor to get a copy of your prescription.

Things to keep in mind

We'll need to hear from you before we ship you refills. This is called Ship Consent and is a required step for Medicare prescriptions.

Let us know if you have any questions.
